

## Wooden model for casting metal

### • Manufacturing wooden-models with 3D-models and Cuttings

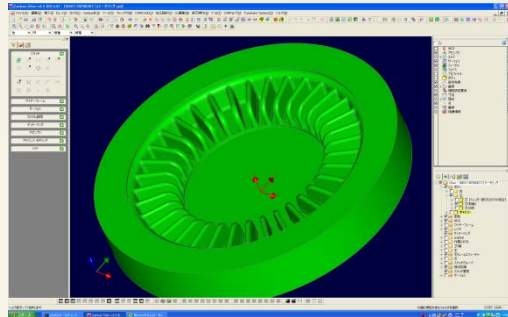

#### Features

- manufacturing 3D-models from 2D-drawings.
- Manufacturing with MC, Superior quality products can be provided.
- Harmonizing Craftmanship with advanced technology , Short delivery can be provided.

#### «Inspection »

## Overview (Technical principles, actions, etc.)

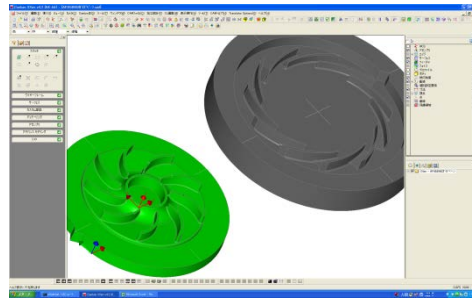

Wooden models can be produced manufacturing 3D-models from 2D-drawings and Cutting with MC,  
Designing 3D-models can be provided superior quality wooden models.  
And harmonizing Craftmanship with advanced technology, more shorter delivery flow can be provided.

### ■ Manufacturing flow

①

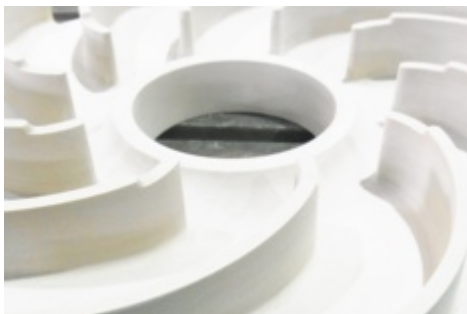

②

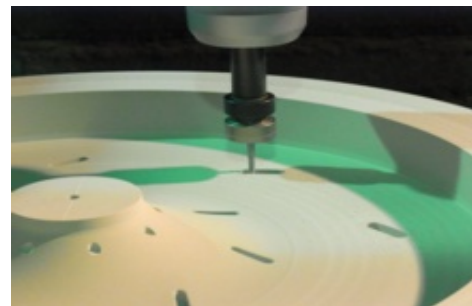

- ① Provided 2D-drawings
- ② Designing 3D-models
- ③ Cutting with MC
- ④ Crafting and inspection
